

Mechanics Gravity Loops & Turns magnetic bricks 130 pieces G

Mechanics Gravity Loops & Turns magnetic bricks 130 pieces GEOMAG GEO-763

Ref: 0871772007630

Mechanics Gravity Loops & Turns magnetic bricks 130 pieces GEOMAG GEO-763

Geomag Mechanics Gravity Loops & Turns opens up a world of dynamic play for young engineers using real physical phenomena. This 130-piece set allows children ages 8 and up to build unique track designs for small balls that use magnetism and gravity to create spectacular effects and encourage learning through hands-on experience.

Endless possibilities with mechanic gravity

With Mechanic Gravity Loops & Turns, young designers can build complex tracks with loops and turns. The possibilities are truly vast! Requiring analytical thinking and spatial planning, the projects are not only great fun, but also an introduction to the world of science. Magnetic plots and 360° loops guarantee dynamic entertainment that young builders are sure to enjoy.

STEM Education in Action

Each piece of the set is designed with STEM education in mind, supporting development in the areas of science, technology, engineering and math. Through hands-on experiments, children discover the principles of physics, such as the force of gravity and magnetism, while learning how they can affect movement.

Fun and Science in One

Mechanics Gravity Loops & Turns offers a unique combination of science and fun, providing hours of constructive entertainment. With included instructions and access to online video tutorials, the set becomes a source of inspiration for endless creative play. Other sets in the Mechanics Gravity series are also available for purchase - try them out for even more creative opportunities!

Included

10x metal ball
99x building block
21x track piece

Manufacturer: Geomag
Name: Mechanics Gravity Loops & Turns
Model: GEO-763
Material: 74% recycled plastic
Age of child: 8 years and older
Number of elements in the set: 130

Price:

€ 24.00

Toys, Blocks and construction sets
