USB-C to USB-C Cable Acefast C7-03, 1.2m, with Display (Black)

The Acefast C7-03 is a reliable and efficient cable with a length of 1.2m, designed for fast charging and stable data transfer. Its durable construction and advanced features make it an ideal choice for those who value quality and reliability in everyday use.

Fast Charging and Data Transmission

The Acefast C7-03 cable supports fast charging up to 100W, allowing for rapid replenishment of energy in devices compatible with this technology. With a transfer speed of up to 480 Mbps, file transfer is quick and efficient, significantly speeding up work with large amounts of data.

Solid and Reliable Construction

The cable is made of high-quality materials. The outer layer with braiding protects it from damage, while the zinc alloy connectors add extra durability. Its foldable design helps maintain order, eliminating cable tangles. Moreover, the Acefast C7-03 is certified by CE, RoHS, FCC, and EAC, indicating compliance with high safety and quality standards. The built-in E-marker chip intelligently regulates voltage and current intensity, ensuring stable and safe charging of your devices.

Practical Features and Durability

The cable has been tested for 25,000 bends, guaranteeing its longevity and resistance to daily use. Additionally, the three-color display indicates the charging status, facilitating control over the entire process.
