

Classic Recycled magnetic blocks 60 elements GEOMAG GEO-272

Ref: 0871772002727

Classic Recycled magnetic blocks 60 elements GEOMAG GEO-272

Classic Recycled magnetic blocks 60 elements GEOMAG GEO-272

Geomag Classic Recycled is a set that takes traditional block play to a new level. It contains as many as 60 pieces and is designed for little builders aged 3 and up. It's a great way to combine learning with entertainment! It is worth noting that the blocks included in the set were created from 100% recycled plastic - so they are not only durable, but also environmentally friendly.

Strong magnets

The set includes magnetic sticks and balls, which ensure the durability and stability of each construction. These easy-to-join elements ensure that even the youngest engineers can easily build and modify their ideas. There are also special bases for children to use - two square and two pentagonal ones.

Supporting development through play

Geomag Classic Recycled bricks are an excellent tool for developing motor skills, spatial thinking and creativity. Supporting STEM methodology, this set encourages children to experiment and learn through hands-on activities.

Hassle-free storage

For the convenience of parents and children, the set includes three storage boxes, making it easy to organize and clean up after play.

This also avoids losing small pieces.

Included

28x magnetic stick 28x metal ball 2x square base 2x pentagonal base 3x storage box
