

Supercolor Panels Recycled 35-piece GEOMAG GEO-377

Supercolor Panels Recycled 35-piece GEOMAG GEO-377

Ref: 0871772003779

Supercolor Panels Recycled 35-piece GEOMAG GEO-377 magnetic bricks.

The Geomag Supercolor Panels Recycled set opens up a world of magnetic play for young builders, where education meets creativity. These 35 colorful elements are not only a way to have fun, but also an excellent tool for learning the basic principles of physics, engineering and geometry. High-quality 100% recycled plastic was used to make the toy. The product is suitable for children ages 5 and up.

Education through play

Geomag Supercolor Panels Recycled supports education in the spirit of the STEM method, facilitating the acquisition of knowledge in science, technology, engineering and mathematics. While building 3D models, children also develop motor skills, creativity, imagination and spatial thinking, learning by doing.

Almost unlimited building possibilities

This unique set allows you to create without limits. Thanks to magnetic sticks with a strong attraction force, each construction is stable and durable, encouraging exploration and testing new ideas. The child can also conveniently modify his construction at any time - without having to completely disassemble it. The package also includes triangular, square and pentagonal panels to further stiffen and decorate the design.

Easy to keep organized

The set comes with a practical storage box for easy and quick cleanup after play. It also allows the child to avoid losing small pieces and learn to keep things tidy from an early age.

Set includes

12x magnetic stick 12x metal ball 8x triangular panel 2x square panel 1x pentagonal panel 1x storage box
