

Mechanics Gravity RE Combo Starter Set Hero GEOMAG GEO-757

Ref: 0871772007579

Mechanics Gravity RE Combo Starter Set Hero GEOMAG GEO-757

Mechanics Gravity RE Combo Starter Set Hero GEOMAG GEO-757 magnetic bricks.

With the Geomag Mechanics Gravity RE Combo Starter Set, young science and engineering explorers can build unique structures and manipulate real physical forces. This innovative 153-piece set is a fantastic way to understand the principles of gravity, magnetism and kinetic energy in hands-on, fun experiments. The product is suitable for children ages 8 and up.

Build, experiment, learn

This set allows you to build up to 11 different tracks for metal balls - from simple models to advanced layouts with loops and jumps. Each construction is a new adventure and a chance to learn through experience, introducing young builders to the basics of mechanics and the physics of motion.

Learning through play

With the Mechanics Gravity Combo, knowledge acquisition is directly connected to fun. The set fits into the STEM education methodology, supporting the development of skills in science, technology, engineering and math. Through hands-on building and observing the workings of gravity and magnetism, children develop their analytical skills and learn to solve problems.

Innovative approach

Geomag Mechanics Gravity isn't just blocks - it's a whole system that allows you to create complex tracks and machines. With the included instructions and online videos, young builders can get inspired and learn new ways to use the product. It is also possible to combine the toy with other sets from the Mechanics Gravity series (sold separately). This will allow your child to create even more elaborate constructions!

Included

12x metal ball
116x building block
25x track piece

Manufacturer: Geomag
Name: Mechanics Gravity Combo Starter Set
Model: GEO-757
Material: 73% recycled plastic
Age of child: From 8 years old
Number of pieces: 153
