Stay connected

You no longer have to worry about missing something important. The smartwatch will immediately notify you of incoming messages! What's more, the P76 allows you to receive phone calls via Bluetooth - no more need to reach for your smartphone every time.

Take care of your health

The Colmi P76 smartwatch will also help you take care of your health. Using it, you can monitor your heart rate, blood oxygen saturation (SpO2), and blood pressure. This way you will be able to react immediately to any worrying symptoms! The watch also offers a sleep monitoring function - it intelligently detects its phases and measures their duration.

Efficient battery

Forget about the need for frequent charging of the smartwatch. Colmi P76 is equipped with a powerful 430 mAh battery, which allows you to use it for up to several days before you need to plug it in. So you can go on a trip or business trip without any worries!

Waterproof design

No longer do you have to take the watch off when it rains, washing dishes or going for a workout. Colmi P76 is distinguished by its 3ATM and IP68 water resistance, which means that it won't be intimidated by accidental splashes! Enjoy peace of mind and use the smartwatch without worry whenever you want.

Even more features

Colmi P76 smartwatch puts at your disposal a lot of interesting functions. Among other things, you can use it to remotely operate the music player on your smartphone. The watch is also compatible with voice assistant - now you only need a few words to, for example, check the weather or turn on the app of your choice!
