2-in-1 xTool M1 10W Laser Engraver - Basic Kit

Create without limits and enjoy clean air with the xTool kit, which combines an advanced xTool M110W laser engraver and a powerful xTool smoke purifier. This remarkable duo is designed to support your creativity and make you comfortable in any environment.

Cutting-edge technology for precise creation

The xTool M110W engraving machine is an example of innovation in precision cutting and engraving. Equipped with a 10W laser, it allows you to cut Basswood up to 8mm thick in a single cut, while maintaining remarkable precision down to 0.01mm. Backed by a 16-megapixel ultra-wide-angle camera that facilitates focus and material recognition, it enables the most complex projects with ultra-precise detail.

Clean air on every job

Rounding out the kit is the xTool Smoke Purifier, which removes 99.97% of harmful particles and odors with its advanced filtration system. The three-layer filter, including a HEPA filter and activated carbon, ensures optimal working conditions, eliminating air pollutants during cutting and engraving. Its practical casters allow the purifier to be easily moved to where it is currently needed.

Intuitive software and ease of use

Compatibility with a variety of operating systems and the intuitive Laserbox application make both the engraver and the purifier easy to use for users at any level. The compact size and design of both devices ensure that they will fit perfectly into a home or professional studio space.

Creativity without interference

When you choose the xTool kit, you open the door to endless creative possibilities, creating everything from personalized gifts to innovative fashion projects, while keeping your work environment clean and healthy. It's ideal for anyone who values precision, style and comfort.

Included

- M1 10W laser engraving machine x 1
- Basic materials package x 1
- Cutting mat with light handle (blue) x 2
- Cutting mat with strong handle (pink) x 2
- 45° replacement blade x 5
- Smoke purifier x 1
- Filter set (in smoke purifier) x 1

LASER ENGRAVER

Manufacturer: xTool
Model: M1 10W
Laser output power: 10W
Electrical power input: 38W
Laser source: Diode laser (Wavelength: 455nm)
;Lifetime: 8000h ~ 10000h

Material processing

Maximum depth of cut: 10W 8mm (Basswood)
Maximum engraving speed: 250mm/sec.
Engraving precision: 0.01mm
Noise level:

Price:

€ 1 865.00
