Laser engraving machine 2-in-1 xTool F1 - Suit kit

2-in-1 xTool F1 Laser Engraver - Suit Kit

The xTool F1-Mint Green kit together with the xTool Desktop Smoke Purifier is the perfect combination for anyone looking for an advanced laser engraving system while keeping the air in the workplace clean and fresh. This all-in-one solution combines advanced technology with comfort and safety to ensure high quality work and a healthy environment.

Advanced engraving with xTool F1-Mint Green

The xTool F1-Mint Green is a portable engraving device that features outstanding speed, precision and versatility thanks to two types of lasers: a 10W 455nm diode laser and a 2W 1064nm infrared laser. The device allows engraving on a wide range of materials while ensuring exceptional quality thanks to its industrial-grade galvanometer. Its advanced XCS software is easy to use and offers extensive editing capabilities, making it ideal for professionals and hobbyists alike.

Clean air while you work with the xTool Desktop Smoke Purifier

The xTool Desktop Smoke Purifier is designed to effectively eliminate pollutants, smoke and unpleasant odors while working with an engraving device. With excellent compatibility with the xTool F1, the purifier can start and stop synchronously with the engraver, automatically adjusting its operation. Equipped with an advanced filtration system, including HEPA H13 and activated carbon filters, the purifier provides clean and healthy air, minimizing the risk of inhaling harmful substances.

Convenience and safety of use

The xTool F1-Mint Green and xTool Desktop Smoke Purifier kit provide not only performance, but also comfort and safety for use. The xTool F1 is equipped with a fully closed lid to protect your eyes from laser light, as well as overheat protection systems and a password lock. With its efficiency and adjustable speed, the air purifier absorbs most pollutants, allowing the device to be used comfortably in a variety of environments.

Synchronization and ease of use

Synchronization of the two devices is simple and intuitive, allowing easy management of the engraving and air purification process. The purifier's run time settings can be easily adjusted, allowing for optimal air cleaning depending on the materials used and the intensity of the work.

Included

xTool F1 laser engraving machine

Desktop xTool smoke absorber with accessories:
