Rojeco 3.2l cat fountain/drinker

Provide your pet with constant access to fresh, clean water. Made of 304 stainless steel, the Rojeco drinker offers an effective filtration system to effectively eliminate impurities. It is also distinguished by its capacity of as much as 3.2 liters and quiet operation. Its additional advantage is a special tap - the water flowing from it attracts the cats' attention and encourages them to drink.

Top quality workmanship

High-quality 304 stainless steel was used to make the drinker, which is durable and completely safe for animals. It does not contribute to the growth of bacteria and avoids problems associated with feline acne. Take care of your pet's health and provide him with the best!

Hassle-free cleaning

Do not be afraid of problems with cleaning the fountain. The device is very easy to assemble and disassemble, and its stainless steel feeder and water tank can be washed in the dishwasher without any worries. So you can easily keep it in perfect condition! Forget about tedious, time-consuming cleaning.

Double filtration

Be sure that the water your pet drinks is completely safe for health. The fountain uses a dual filtration system - a sponge filter effectively

traps hair, dander and other larger waste, while an activated carbon filter eliminates heavy metals and fine impurities. This way you don't have to worry about anything harming your cat!

Thoughtful design with a faucet

The fountain is equipped with a special tap, from which water flows. Such a solution effectively attracts the attention of cats and encourages them to drink. Thanks to this you can take better care of your pet's condition! What's more, the water set in motion stays clean and fresh longer.

Large capacity

Say goodbye to the need to frequently refill the water in the drinker. The Rojeco brand device features a large capacity of 3.2 liters - this is enough even for about 1-2 weeks. So you can go to work or a party, or even go away for the weekend without any worries. Do not worry that your cat will run out of water to drink!

Refined in every detail

Rojeco drinker works surprisingly quietly - its volume level is only about 20 dB, which is about the same as the noise of leaves or a whisper. You don't have to worry about it disturbing your peace or scaring your pet! The device is also equipped with a soft blue LED backlight that makes it easy to locate after dark. In addition, the low voltage of 5 volts makes the fountain safe for pets - even if your pet bites the cord.
