Flextail Cozy Lounger Automatic Inflatable Lounger (blue)

Flextail Cozy Lounger Automatic Inflatable Lounger (blue)

The Flextail Cozy Lounger Inflatable Lounger is the perfect solution for anyone who appreciates comfort and convenience - from the beach to camping. All you have to do is press a button and the built-in pump will automatically inflate it in just about 100 seconds, providing you with the perfect place to relax almost anywhere. It requires no effort on your part! The product can also act as a powerbank, and it can be conveniently transported in the included bag.

Automatic pumping - ready in a flash

Thanks to its efficient automatic pumping system, which provides an airflow of 265 l/min, the Cozy Lounger is ready for use in just about 100 seconds. The built-in pump eliminates the need to inflate it yourself, which is a huge convenience, especially when relaxing outdoors. Now all you have to do is press a button!

Hassle-free transportation

The Cozy Lounger weighs only 2.1 kg, and when deflated its dimensions are only 34 x 19 x 80 cm. Thanks to this, its storage and transportation will not cause you any problem! You can easily take it with you on a camping trip, to the beach or to the mountains. You will also find a practical bag in the set, which will make it even easier for you to carry it.

Ergonomic design - unsurpassed comfort

This ergonomically designed recliner offers exceptional comfort, allowing you to properly align your spine while resting. Its dimensions when inflated (185 x 50 x 80 cm) provide enough space to lie down and relax comfortably. At the same time, the Cozy Lounger is very pleasant to the touch, soft and stable.

Impressive durability

The lounger is made of durable, waterproof PVC material, making it very durable. It will perform excellently in almost any conditions - it will not be intimidated even by accidental splashing! What's more, the product can easily handle a load of up to 150 kg - its stability and solid construction make it an ideal choice for outdoor enthusiasts looking for a reliable resting solution.

Powerbank function

The built-in pump of the recliner is equipped with a 2600 mAh battery, which allows it to be used about 30 times on a single charge. What's more, it also allows the product to act as a powerbank (with a USB-C port). Now you can easily charge your phone, even when you are away from power sources!
