SwitchBot Lock Pro - Intelligent Door Lock

The SwitchBot Lock Pro is an intelligent door lock that redefines the concept of security and convenience at home. It offers various ways to unlock the door, and with the dedicated app, you can control it from anywhere in the world. The Auto-Lock feature ensures maximum security for your home by automatically locking the door, eliminating uncertainties about leaving them open. The simple installation process and compatibility with existing keys make it intuitive and hassle-free to use. When combined with the SwitchBot Hub 2 (sold separately), you gain even more capabilities, including voice control.

Maximum Protection for Your Home

Now you can enjoy peace of mind knowing that your home is secure. The Auto-Lock feature means you no longer have to worry about securing the door when returning home - it automatically locks according to their state of opening. Furthermore, with the dedicated app, you'll receive special notifications reminding you to close the door.

Intelligent Control in Your Hands

Take full control of your home's security with the dedicated SwitchBot app. You'll receive instant notifications when the door is opened, allowing you to react quickly no matter where you are. The app will alert you if the door remains unlocked, providing an additional layer of security for you and your family. You can also review the lock's interaction history to track who and when opened or closed the door.

Door Opening According to Your Preferences

The SwitchBot Lock Pro offers incredible flexibility in door opening. With Bluetooth, you can quickly and easily unlock the door with your smartphone, and the Home Sharing feature allows you to share access to the lock with selected individuals. If you prefer traditional solutions, you can also use a physical key. The keypad, sold separately, enables unlocking the door with codes, passwords, fingerprints, or NFC cards, providing even greater versatility. With the hub 2 (also sold separately), you can also open the lock with simple voice commands and integrate it with Apple Home.

Uninterrupted Operation for 270 Days

The intelligent SwitchBot lock surprises you with an exceptionally long working time. With 4 AA batteries, it provides up to 270 days of uninterrupted operation. Even if the device's batteries are depleted, you can use a passive power source to unlock the door in critical situations! Furthermore, with the Dual Power Pack (available separately), you can extend the device's operating time up to 365 days. It not only provides uninterrupted power but also offers relay charging in case of power supply interruptions.

Refined Design

The SwitchBot Lock Pro introduces the Quick Key feature, providing faster and more intuitive door opening. With its minimalist aluminum design, the lock seamlessly blends into your interior. The simple installation process makes the SwitchBot smart lock the ideal solution for any type of door. Importantly, when using Lock Pro, you don't have to give up the original keys to your doors!
