Lamp Neewer TL96RGB LED RGB 2500-8500K

Neewer TL96RGB LED RGB Magnetic Lamp 2500-8500K

The Neewer TL96RGB LED RGB is a portable magnetic lamp with dimensions of just 10.8 x 4 x 4.4 cm and a weight of 134 g, making it an ideal choice for mobile content creators. Equipped with 96 LED bulbs, it offers a power of 6W and a brightness of up to 800 lux. It allows, among other things, to adjust the color temperature ranging from 2500K to 8500K, and thanks to the high CRI index of 97+, it ensures precise color reproduction in any conditions.

Versatile Mounting Options

The TL96RGB lamp is designed for various applications. Thanks to its magnetic sides, it can be easily attached to metal surfaces. There is also the option to mount the product on tripods or other devices using 1/4" threaded holes at both ends. All this makes the lamp suitable for various tasks - you can successfully use it, among others, when recording videos, conducting live streams, or taking photo shoots.

Multiple Lighting Adjustment Options

The Neewer TL96RGB offers three operating modes to choose from: two-color CCT, colorful HSI, and FX scenes. In CCT mode, the user can smoothly change the color temperature, while the HSI mode allows adjustment of hue and saturation in the full RGB range. FX scenes include 20 different special effects, such as Lightning, Party, or Fireworks - it's a perfect way to create a unique atmosphere and add some creativity to your photos and videos! The light intensity can be adjusted in the range of 0-100% in all three modes.

Built-in Battery, Convenient Charging

The integrated 2500mAh battery provides up to 2 hours of lamp operation at maximum brightness. So you can use it as long as you need! Charging it via the built-in USB-C port will take only about 1.7 hours. This way, you'll be back to work in no time.
