Neewer NK800: Professional lighting for photo and film

The Neewer NK800 studio kit is a complete lighting kit that provides a professional environment for photography and filming. Equipped with advanced RGB LED light sources and intelligent control via a dedicated app, this kit allows you to creatively experiment with lighting.

Colorful RGB LEDs: Creative experimentation

The RGB LED bulbs in the kit are CE/UKCA certified and offer a wide range of possibilities, including 36,000 colors, ideal for creative photography and videos. In addition, they have a high color temperature (2700 K - 6500 K) and a high color rendering index (CRI93+/TLCI98+) for accurate color reproduction.

Intelligent control: NEEWER app and precise colors

The NEEWER app allows smart control of lighting from up to 15 meters away via a Bluetooth connection. With 9 control modes, users can easily adjust the light to suit their needs. In addition, durable soft boxes provide even and balanced illumination, and an adjustable metal stand allows the lights to be stably positioned.

Kit contents

2 x RGB 24 watt LED bulb
2 x Softbox (61 cm x 61 cm)
2 x Light stand
1 x Carrying bag
