

## Cyclus M2 bicycle computer - compatible with Strava, Train

Ref: 6976297860655

Cyclus M2 bicycle computer - compatible with Strava, Trainingpeaks etc.

### Cyclus M2 bicycle computer

Do you often ride a bicycle? Ensure convenient access to your riding information! The Cycplus M2 bicycle computer offers a 2.5-inch display where you can find all the most important data. Its operating time is about 35 hours on a single charge, and its IPX6 water resistance allows you to use it even in the rain without worry. The device is also compatible with the ANT+ protocol, so you can easily connect it to additional sensors.

### Easy-to-read display, compact design

The computer weighs only 68 g, and its dimensions are 66 x 66 x 22 mm - it won't take up too much space on your bike's handlebars. What's more, the device's 2.5-inch display provides a bright, clear image in almost any lighting conditions. Now all you need is a glance to check the current speed, distance, temperature or time, for example!

### Long operating time

Don't be afraid of having to charge your computer frequently. The M2 is equipped with a powerful 1100 mAh battery that provides up to 35 hours of working time. To charge the device, just plug it in via the built-in USB-C port - after about 3.5 hours it will be fully operational again!

#### Compatibility with ANT+ protocol

Do you care about additional information? No problem - the M2 bike computer is compatible with the ANT+ protocol, which means you can easily pair it with additional sensors. Heart rate, speed, rhythm or power sensor - the decision is yours! It is also possible to synchronize data with the XOSS app via Bluetooth 5.0. Enjoy even more convenient access to information, monitor your progress and set your next goals to achieve!

#### Included

Bike computer Charging cable (USB-A to USB-C) Mounting bracket Rubber pad Eraser x3 User manual
