Gens ace G-Tech 5500mAh 11.1V 3S1P 60C HardCase 15# car Battery

Gens ace G-Tech 5500mAh 11.1V 3S1P 60C HardCase 15# car battery.

Gens ace G-Tech is a high-quality LiPo battery designed for use in RC models. It offers a capacity of 5500mAh and a voltage of 11.1V (3S), which provides the long-lasting and efficient power needed for intense driving. The maximum continuous discharge current of 60C enables rapid response to changing conditions and engine demands, delivering power when it is needed most. The T-plug connector and JST-XHR balancer plug ensure a secure and stable connection, while the 376 g weight and 138.5 x 46.9 x 38.8 mm dimensions are optimized to fit most RC cars. In addition, the rugged HardCase protects the battery pack from impacts and mechanical damage, which is crucial when driving in rough terrain.
