Cycplus A8 electric inflator

Don't let a lack of air in your tires derail your plans. The Cycplus A8 electric inflator will allow you to be prepared for a variety of circumstances! It offers several operating modes to choose from and a maximum pressure of 150 psi. Thanks to its metal housing, it is very durable and efficiently dissipates heat, while its dimensions of 172.9 x 65 mm and weight of only 461 g allow it to be transported effortlessly. The kit also includes a ball pump nozzle and a practical carrying case.

The pump you need

The A8 offers 4 default pumping modes - bike, motorcycle, car and ball. You can also manually enter the settings of your choice! The maximum pressure of 150 psi / 10.3 bar makes the device ideal for most types of tires. The current pressure value can be checked on the built-in screen. What's more, once the tire is inflated to the desired level, the inflator will automatically stop working.

Thoughtful design

Thanks to the metal housing and special ventilation holes, the inflator perfectly dissipates heat. It won't get excessively hot! In addition, an intelligent chip monitors the pressure with a measurement accuracy of up to 0.1 bar. The device is also distinguished by its high durability and very low noise level.

Powerful battery

The Cycplus A8 pump is equipped with a high-performance battery with two cells (2600 mAh each). As a result, it provides a surprisingly long operating time. When fully charged, it allows you to inflate a car tire about 4 times, a mountain bike tire about 18 times, and a basketball about 40 times. The product also supports QC 3.0 fast charging - it only takes about 2 hours to be ready for action again!

Convenient operation

Convenient operation of the pump is provided by buttons located in easily accessible places. What's more, the device is very light and handy - it weighs only 461 g, so it can accompany you almost anywhere. Take it on your next bike trip and be sure that nothing will surprise you! The product also has built-in LED lighting - you can easily use it even after dark.
