

Electric Bike Battery, Green Cell, EBIKE50STD, 13Ah (312Wh),

Ref: 5907813960239

Electric Bike Battery, Green Cell, EBIKE50STD, 13Ah (312Wh), 24V E-Bike.

Electric Bike Battery, Green Cell, EBIKE50STD, 13Ah (312Wh), 24V E-Bike

Equip your electric bike with a battery that will provide you with fantastic performance on the road. Green Cell Li-Ion cells stand out for their increased density and capacity of 13 Ah, ensuring a long range on a single charge. The reliable and safe operation is ensured by the BMS management system, and the accessories included in the set facilitate the installation of the product. The battery is suitable for motors up to 250 W. You will also find keys for the anti-theft lock and a charger in the package.

Extended Range on a Single Charge

The heart of the EBIKE50STD model is the Li-Ion cells, which are characterized by high capacity and long lifespan. As a result, a fully charged battery can provide a range of up to 90 km during calm rides or up to 40 km at maximum performance (average distance for standard 250 W motors). You no longer have to worry about your journey ending too quickly!

Concern for Safety

The battery is equipped with a durable, sealed enclosure, making it very robust and resistant to wear. It also utilizes an advanced BMS system that continuously monitors its operation. As a result, you can enjoy reliability during rides and user safety - the EBIKE50STD model is effectively protected against deep discharge, overcharge, and overheating. The built-in indicator will provide you with information about the charging status.

Wide Compatibility, Easy Installation

Compatibility and installation issues are a thing of the past. Green Cell battery utilizes electronics that are compatible with most bike models available on the market. The package also includes essential accessories that will allow you to install it quickly and easily. Save time and enjoy your ride! The product is compatible with Bafang, BMZ, Bosch, Brose, Fauza, Giant, Impulse, Panasonic, Shimano, Specialized, Yamaha, etc., motors, as well as Ecobike, Gazelle, Giant, Yamaha, Haibike, Kalkhoff, Lovelec, Prophete, Merida, and other bikes. Note: the battery is not compatible with motors featuring recuperation.
