

Battery for an electric bicycle, Green Cell, EBIKEGCF03, 48V

Ref: 5904326371057

Battery for an electric bicycle, Green Cell, EBIKEGCF03, 48V, 14.5Ah, Li-Ion with charger GC PowerMove

Battery for an electric bicycle,, Green Cell, EBIKEGCF03, 48V, 14.5Ah, Li-Ion z ładowarką GC PowerMove

Need a battery for your electric bike? Whether you're riding off-road or in the city, the Green Cell EBIKEGCF03 model will provide you with reliable performance and excellent efficiency! Li-Ion cells with increased density allow for a longer range on a single charge, and the accessories included in the package enable simple and quick installation. The set also includes a charger and keys for the anti-theft lock.

Efficient and Reliable

The battery is equipped with high-quality Li-Ion cells, which are characterized by long lifespan (up to 700 charge cycles) and efficiency. Its reliable operation is ensured by an intelligent management system that constantly monitors the most important parameters. The product is also protected against deep discharge, overcharge, and overheating. Don't worry about it getting damaged quickly!

Impressive Range

Easily conquer even the steepest hills. The battery is equipped with a 30 A BMS, allowing it to be a reliable power source for your electric bike's motor. This solution also allows for a fantastic range - up to 150 km during calm rides or up to 70 km at maximum performance. With Green Cell, even the longest routes won't intimidate you!

Hassle-Free Installation

The EBIKEGCF03 model utilizes electronics that are compatible with most popular bike models. You don't have to worry about installation problems! Moreover, the package includes everything you need to mount the battery - the whole process will be very quick and simple. The product works with motors such as Bafang, BMZ, Bosch, Brose, Fauza, Giant, Impulse, Panasonic, Shimano, Specialized, Yamaha, and others. Note: the battery is not compatible with motors featuring recuperation.

Included in the Set

Battery
Charger
2x Keys
Mounting Rail
User Manual

Manufacturer

Green Cell

Model

EBIKEGCF03

Capacity

14.5 Ah

Voltage

48 V

Cell Type

Li-Ion

For Motors Up To

750 W

Energy

624 Wh

Input

XLR 3 Pin

Connector Type

EC5

Enclosure Type

Down Tube

Dimensions

367 x 90 x 111 mm
