

## Armband Heart Rate Monitor Coospo HW807 compatibile with Str

Ref: 5906168434235

Armband Heart Rate Monitor Coospo HW807 compatibile with Strava , wahoo, mapmyfitness etc.

### Coospo HW807 Heart Rate Monitor

Meet the Coospo HW807, a wristband heart rate monitor designed for professional trainers who need an effective, specific and scientific approach to training. With Heart Rate Zone (HRZ) monitoring, the HW807 will help you achieve better results and optimize the intensity of your workouts.

### Heart rate zone training

The HW807 is equipped with a 5-color LED indicator that tells you your current heart rate zone. This makes it easy to check your heart rate in real time without the need for a smartphone. Each color corresponds to a different heart rate zone, making it easy to control the intensity of your workout and adjust your efforts to meet your goals.

### Bluetooth and ANT+ technology

With Bluetooth and ANT+ technology, the HW807 transmits real-time heart rate data to smart devices such as smartphones, fitness equipment and cycling computers. It is compatible with popular fitness apps such as CoospoRide, Wahoo, Zwift, Rouvy, Trainerroad and many others. This provides versatility and convenience during workouts.

### Accurate heart rate monitoring

The HW807 uses a state-of-the-art optical sensor array and proprietary algorithm, allowing for precise, real-time heart rate monitoring. Whether you're running, biking or doing other aerobic exercises, you can rely on accurate data to help optimize your workout.

#### Exceptional comfort

Equipped with a sweat-resistant band, the HW807 is comfortable to wear during intense workouts. The lightweight and ergonomic design ensures full freedom of movement and comfort throughout your workout. Plus, with its built-in vibration motor, the HW807 notifies you when your heart rate exceeds 180 bpm, allowing you to quickly adjust your exercise intensity.

#### Magnetic USB charging and IP67 water resistance

HW807 uses magnetic USB charging, which makes charging fast and convenient. With a rechargeable lithium battery (90 mAh), the heart rate monitor can run for up to 20 hours on a single charge. It's also IP67 waterproof certified, which means it's resistant to water and sweat, ensuring reliability in all conditions.

#### Included

HW807 heart rate monitor with armband x 1

Charging cable x 1
