Niimbot D110 wireless label printer (green)

The Niimbot D110 portable label printer will find its use, for example, at home or in a store. It stands out for its efficient operation and does not require ink. Thanks to its lightweight and compact design, it won't take up much space, and you won't have any problems operating it. What's more, it works with iOS and Android operating systems, and connects to your device via Bluetooth - just download the Niimbot app.

Various applications

You will use the Niimbot D110 at home to label, for example, food, toy or spice containers. And at work, it will allow you to keep things in order - you will mark binders with important documents with it. In addition, it will find its use in clothing stores, jewelry stores, food stores or bakeries.

Efficient and convenient printing

The Niimbot D110 prints at a speed of 15-20 mm/s, so you won't have to wait too long for labels. What's more, its resolution is 203 DPI. It also requires no ink and allows you to print labels with a width of 12 mm. Moreover, it is compatible with iOS and Android operating systems.

Dedicated app

Operation of the device is facilitated by the Niimbot app. With it you can print any text, product barcodes, QR codes, images, excel table, emoticons or time and date. You can also create serial printing, product expiration date, etc.

Thoughtful design

The printer is distinguished by its portable design - its dimensions are 108 x 76 x 30 mm, and its weight does not exceed 137 g. You can successfully store it, for example, in a desk drawer. What's more, it works wirelessly - it is equipped with a 1200 mAh battery, and the included USB-C cable will facilitate charging. In addition, its use is simple and safe.
