CR-Silk PLA Filament Creality (Pink-purple)

Ref: 6971636405559

CR-Silk PLA Filament Creality (Pink-purple)

CR-Silk PLA Filament Creality (Pink-purple)
The CR-Silk filament by Creality stands out with its metallic, elegant shine, attracting attention and being perfect for printing figurines, decorations, and even jewelry. It is also characterized by impressive durability and compatibility with most Creality printers. Moreover, it is made from durable yet environmentally friendly materials.

Fast and Seamless Printing
Thanks to careful winding, the filament allows for smooth, trouble-free printing at speeds up to 100 mm/s. It is also tangle-resistant. This saves time and prevents material wastage!

Elegant and Durable
The filament is very pleasant to the touch and stands out with an elegant, delicate shine, allowing for a pearl-like and smooth surface of the model without the need for additional polishing. Additionally, it is made from environmentally friendly, durable materials (PLA), making it resistant to distortion and exhibiting low shrinkage. Its tensile strength reaches 35 MPa, and its bending strength is as high as 67 MPa.

Manufacturer
Creality
Name
CR-Silk Filament
Model
3301120013
Color
Pink-Purple
Extruder Temperature
From 190°C to 230°C
Bed Temperature
From no heating to 60°C
Printing Speed
40-100 mm/s
Tensile Strength
35 MPa
Bending Strength
67 MPa
Filament Diameter
1.75 mm
Weight
1 kg

Price:

€ 28.50
