RC remote control car 1:8 Double Eagle (green) Land Rover Defender E328-003

Double Eagle 1:8 remote control RC car (green) Land Rover Defender E328-003.

Immerse yourself in the exciting world of RC models with an impressive new version of the Land Rover Defender from Double Eagle, this time in 1:8 scale. This large and powerful replica of the famous off-road vehicle was created to provide an unforgettable driving experience for both younger and adult fans of remote-controlled vehicles. With extraordinary attention to detail, the model takes fun to a whole new level.

### Realistic details and power

The model impresses with its realistic details and powerful appearance, replicating the durability and reliability of the real Land Rover Defender. With independent shock absorbers on all wheels and a large steering angle, it provides a smooth and stable ride even on rough terrain.

### All-wheel drive

Equipped with an all-wheel drive system, the model effortlessly overcomes all sorts of obstacles - from steep hills to uneven paths. This design not only provides better traction, but also provides more excitement when exploring a variety of terrains.

### Lighting for night rides

Simulated lights add to the realism and allow for fun after dark, adding an exciting dimension to night adventures. It's a detail that exemplifies the care with which every detail of the Defender is made.

#### Speed adjustment

A useful speed adjustment function allows you to adjust the vehicle's speed to different road conditions, which is especially useful when driving on variable terrain. This puts you in full control of the vehicle and increases the safety of your fun.

#### 2.4 GHz connection

Remote control using a 2.4 GHz connection ensures reliable communication with the vehicle, allowing for seamless fun without interference, even in a group of multiple vehicles. Such a solution allows you to organize exciting races and duels with other RC enthusiasts.
