RC remote control car 1:18 Double Eagle (green)Buggy (high speed) E330-003

RC remote control car with remote control 1:18 Double Eagle (green) Buggy E330-003.

Imagine a remote-controlled model that pushes the boundaries of fun with its dizzying speed and off-road design. The remote-controlled 4x4 truck is the embodiment of power and adrenaline, designed for children over 6 and adults seeking intense thrills. It easily reaches speeds of up to 20 km/h, making any obstacle on the road just waiting to be overcome!

4x4 drive

Off-road driving in miniature is within reach! The suspension system on four independent wheels provides exceptional stability and the ability to overcome uneven terrain. In addition, solid tires made of high-quality rubber provide excellent grip, which is a guarantee not only of safety, but also of maximum control while driving. Combined with 4x4 drive, no terrain is too difficult for this little giant.

Powerful engine

Under the hood of this off-roader is a high-performance electric motor, powered by a 7.4V lithium battery with a capacity of 1,200 mAh, which provides the power and endurance needed for prolonged fun. This motor not only propels the truck to impressive speeds, but also provides strong and consistent acceleration, which is invaluable on steep hills and challenging terrain.

Aggressive design

It's not just the performance, but also the truck's appearance that impresses. With a stylish graffiti pattern that combines dynamism and distinctiveness, this model stands out. Every detail, from the LED lights combined with the realistic body styling, makes this model an eye-catcher and highlights the distinctive off-road style.

Effortless control

Controlling the model is simple and intuitive, thanks to the 2.4GHz controller's pistol-shaped design, which allows simultaneous play with multiple vehicles without worrying about interference. Forward and reverse buttons and a dial give you full control of the vehicle, and an LED indicator on the controller signals an active connection to the vehicle, giving you peace of mind that you're always ready to react quickly!

Included:

RC car Remote control 7.4V lithium battery USB charging cable

Manufacturer Double Eagle Manufacturer code E330-003 Name Remote controlled off-road 4x4 high speed truck Age 6+ Car speed ≥ 20 m/h Car battery 7.4V 1200 mAH Radio control 1.5V AA batteries x2 (not included) RC control distance RC control 25m
