RC remote control car 1:18 Double Eagle (blue) Buggy (multi-directional) E346-003

Ref: 6948061928731

Remote-controlled RC remote control car 1:18 Double Eagle (blue) Buggy (multi-directional) E346-003.

The 1:18 scale Buggy model from Double Eagle is a true master of aerobatics that will provide you with unforgettable moments of entertainment. Equipped with 4 large wheels, it allows you to move freely on various surfaces and easily overcome small obstacles. Thanks to its forward, backward, right and left driving capabilities, as well as its ability to rotate 360 degrees and drive sideways, it allows you to perform amazing acrobatics and impressive maneuvers. The included remote control will make controlling it even more convenient.

Turn, spin, drift

Ready for an adventure full of exciting stunts? The Double Eagle car will let you move forward, backward, right and left with ease, providing unlimited freedom of movement. You can also perform unbelievable maneuvers, rotating the vehicle 360 degrees and even driving it sideways, making every ride a unique spectacle!

Full control over the vehicle

In the set you will also find a remote control, which allows you to precisely control your favorite car with incredible smoothness Thanks to the advanced transmission system, you can enjoy a stable connection even at a distance of 20 meters, which will ensure uninterrupted fun.
