

AnyCubic Photon Mono M5s 3D Printer

AnyCubic Photon Mono M5s 3D Printer

Ref: 6974662350275

AnyCubic Photon Mono M5s 3D Printer.

Create even more perfect, detail-saturated prints. The AnyCubic Photon Mono M5s 3D printer delivers accuracy of up to $19 \times 24 \mu\text{m}$ and features a 10.1-inch 12K LCD monochrome screen. It also enables automatic leveling and offers print speeds of up to 105 mm/h. You'll also have the dedicated Anycubic app at your disposal, where you'll find many useful features and plenty of ready-to-use models.

Exceptional precision, rich detail

The Photon Mono M5s printer will let you take care of even the smallest print detail. It offers a 10.1-inch 12K LCD monochrome screen and guarantees an XY accuracy of $19 \times 24 \mu\text{m}$. Now you can effortlessly create a plethora of high-quality models that will impress you with a wealth of detail!

Automatic leveling

You no longer have to worry about manually leveling your printer. The Photon Mono M5s model will take care of it for you! The device is equipped with a mechanical sensor and a floating module, so it automatically optimizes the necessary settings. Find out that creating detailed models can be easier than you think!

Impressive printing speed

Forget about the long wait until your prints are ready. The Photon Mono M5s printer can print at speeds of up to 105 mm/hour and is equipped with an improved film, making it not only highly efficient, but also reducing the risk of failure.

Perfect for beginners

Thanks to the smart solutions used, the printer is very easy to use and is suitable even for novice users. The device automatically controls its operation to ensure smooth, reliable operation and minimize the risk of print damage. It also detects the remaining amount of resin and monitors the printing status.

Anycubic app

Care for additional capabilities? Install the Anycubic app! There you will find plenty of original models to print, so you can easily test your printer. A preview of the printing process is also available - now full control is in your hands!

Even more smart solutions

In the new version of Anycubic Photon Workshop 3.1 software, there is an intelligent mode that allows you to automatically adjust exposure parameters to the details and size of the printed model, minimizing the risk of damage. What's more, an improved algorithm improves print stability, streamlines layering and makes it easier to fix any errors.

Included

Printer
Printing platform
Resin vat
Scraper
Tool kit
Mask
Scratch prevention film set
USB flash drive
Air Mate kit
Gloves
Funnel
Power adapter
User manual

Manufacturer
AnyCubic
Model
IPM5SB0BK-Y-O
Screen
10.1-inch 12K monochrome screen (11520 x 5120 px)
Light source
UV LED matrix
Control panel
4.3-inch TFT touch screen
Z-axis
Dual 10 µm inserts
Build platform
Laser engraving, aluminum alloy
Power supply
Rated power 100 W
Data input
USB-A 2.0, Wi-Fi
Printing speed
With High-Speed resin: approx. 105 mm/h; With standard resin: approx. 77 mm/h;
Max. print volume
5,4 l
Max. print dimensions
200 x 218 x 123 mm
Dimensions
460 x 270 x 290 mm
Weight
8.9 kg

Price:

Before: € 381.0048

Now: € 262.00
