Gens ace G-Tech Advanced 6800mAh 22.8V 100C 6S1P HardCase 61#Lipo Battery Pack with EC5

Gens ace G-Tech Advanced 6800mAh 22.8V 100C 6S1P HardCase 61#Lipo battery with EC5 connector

Gens Ace G-Tech Advanced is an advanced battery model, designed for superior performance and safe use. With a capacity of 6800mAh and a high voltage of 22.8V, the battery is ideal for demanding RC models such as 1/7 scale cars, including models such as the FELONY 6S BLX, LIMITLESS and INFRACTION 6S BLX. It offers an extremely high discharge rate of 100C, providing a powerful surge of power in a short period of time. The battery is equipped with a durable HardCase, internal circuitry, LED power indicator and voltage status indicator, making power management much easier. Additional features such as self-storage mode, overcharging protection and a thick 8-gauge cable add to the safety and convenience of use. The JST-XHR balancing connector and EC5 discharge connector ensure robust and reliable connections.
