

Tattu 11.1V 15C 3S 10000mAh Lipo Battery Pack with EC5 plug

Tattu 11.1V 15C 3S 10000mAh Lipo Battery Pack with EC5 plug

Ref: 6928493302149

Tattu 11.1V 15C 3S 10000mAh Lipo battery

The Tattu 11.1V 15C 3S 10000mAh LiPo battery is a solid power source for a variety of applications. It offers 10000mAh capacity and 11.1V voltage. It has a maximum continuous discharge of 15C (150A), with a Max Burst Discharge of 30C (300A), providing adequate power even in intense situations. It is suitable for various professional applications, including drones and other UAVs. It has a JST-XHR balancing plug and EC5 discharge plug, and the recommended charging rate is from 1 to 3C, with a maximum recommended use of 5C, ensuring safe and effective charging. A Tattu TA1000 G-Tech 25A*2 1000W dual-channel charger for 1S-7S batteries is recommended for charging.
