

Tattu R-Line Version 4.0 1300mAh 29.6V 130C 8S1P Lipo Batter Tattu R-Line Version 4.0 1300mAh 29.6V 130C 8S1P Lipo Battery Pack with XT60 Plug

Tattu R-Line Version 4.0 1300mAh 29.6V 130C 8S1P Lipo battery with XT60 Plug connector.

The Tattu R-Line Version 4.0 1300mAh 8S 29.6V 130C LiPo battery will definitely dominate all FPV racers and hardcore freestylers. R-Line is a brand new product line designed specifically for professional FPV racing. They offer higher capacity, lower internal resistance and lower landing temperatures. They are more efficient than any graphene battery.
