

## Coffee Gooseneck Kettle Cocinare B6 (white)

Coffee Gooseneck Kettle Cocinare B6 (white)

Ref: 6975652280244

Gooseneck Cocinare B6 0.6L 1200W temperature-controlled electric kettle (white).

Prepare a warming drink for you and your loved ones with the Cocinare. The Gooseneck kettle stands out with a capacity of 0.6L and allows you to regulate the temperature. This allows you to adjust its performance to your own needs. Moreover, it boils water in just 140 seconds and keeps it warm for about 60 minutes. What's more, the ergonomic design and LCD touch panel on the power base make it easy to use.

### Convenient, intuitive operation

Brew your beverage just the way you like it. The kettle allows you to adjust the temperature from 38°C~100°C, so you can prepare hot chocolate, tea, coffee or milk for your baby. The control panel located on the base will allow you to adjust the settings, and you can monitor the kettle's operation from the LCD display. Moreover, thanks to its power level of 1200 watts, you will boil 0.6 l of water in just 140 seconds.

### Refined design

The Cocinacre Gooseneck B6 is distinguished by its ergonomic design, which allows you to pour water comfortably and steadily. In addition, the S-shaped design guarantees maximum water flow control. You can also personalize the look of the kettle by choosing from a variety of handle designs Note: the set includes only the silicone handle.

### Thoughtful solutions

Use the Cocinare Gooseneck B6 safely. The kettle was created from 304 stainless steel, and the power base is made of fire-resistant material. What's more, you don't have to worry about the risk of getting burned, and the durable finish ensures that the kettle will stay in good condition for a long time. In turn, the innovative temperature control system constantly monitors the temperature level, protecting you from exceeding the safe value.
