

## Smart doorbell Avatto SVD01

Smart doorbell Avatto SVD01

Ref: 6976037361558

### Avatto SVD01 smart doorbell

The Avatto SVD01 smart doorbell uses a camera that provides crystal clear 1080P FHD video with a 150° viewing angle, so you'll always be in the know about what's happening outside your door. The device offers a night vision function and detects motion. A powerful rechargeable battery provides long operating time, and the Family Share feature allows you to manage your home security together. The ability to operate from a mobile app or with voice prompts provides added convenience.

### High-quality video and two-way audio

The Avatto SVD01 doorbell is equipped with a camera, providing a wide viewing angle (150°) and 1080P Full HD video. The device also offers a microphone and speaker, so not only will you see when visitors approach your home, but you will also gain the ability to communicate with them through video calls.

### Video playback and storage function

A TF card slot supporting cards from 8 to 64GB allows you to record locally in a loop. You can play back the recorded video anywhere, and you can also take advantage of cloud storage.

### Convenience of use and Family Share function

Receive notifications, video chat with guests and monitor your door remotely from the Smart Life & Tuya Smart app, which you can download to your phone or tablet. Now you'll gain full control over the security of your home no matter where you are! You can also connect your doorbell to the Amazon Echo Show or Google Home Hub to control it with voice commands. Plus, with the sharing feature, other family members can also manage the ringtone's operation. Take a step toward a smart home with your loved ones!

#### Night vision and precision sensors

Avatto SVD01 is equipped with 4 sensitive infrared LEDs, a light sensor and a motion sensor. Automatic day/night mode switching and motion detection capability provide 24/7 protection for your home. Now you will know about any suspicious activity that takes place in front of your door - you will receive a notification on your phone in case of intruders.

#### Powerful battery and low power consumption

The 4400 mAh lithium battery provides about a month of sleep mode operation (with 10 wakes per day, 15 seconds each). The ability to charge via powerbank and micro-USB port adds to the convenience.
