MINI PC GMKtec G5 Intel N97 12GB RAM + 256GB Black

GMKtec G5 MINI-PC Intel N97 12GB RAM + 256GB black

The GMKtec G5 is a mini PC that will work well both at work and at home. The Intel N97 quad-core processor runs at 3.60GHz and makes the device deliver impressive performance with low power consumption. The product also uses a 1.20GHz Intel UHD graphics chip, which, along with HDMI2.0 ports, guarantees a high-end picture.

Performance and convenience

With 12GB RAM and a 256GB hard drive (expandable up to 2TB), it provides ample space for storing files and applications.

Reliable connectivity

The G5 also offers a variety of wireless connectivity options, including Wi-Fi 5 Dual Band, Bluetooth 5.0 and support for Bluetooth 4.2. In addition, an available RJ45 1000M LAN port provides 10/100/1000 Mbps signal transmission. The ability to connect up to two monitors thanks to HDMI 2.0 x2 ports gives users flexibility in their work and the ability to expand their workspace.

Refined design

Despite its impressive capabilities, the G5 retains a lightweight (206g) and compact design - the computer is 60% smaller compared to other products of its kind. With a generous set of ports, including USB3.2, Giga LAN(RJ45) and a TF/MicroSD card slot, the device provides

versatile compatibility with TVs, monitors, speakers, keyboards, mice, printers, or projectors.
