ONIKUMA Gaming Headphones (Blue/Purple)

Are you looking for cute headphones that show off your sweet personality? Do you like cute aesthetics and want the headphones to match your outfits or room? Perhaps you want to stand out from the crowd or your friends on the server? The ONIKUMA B90 headphones are the perfect choice for you! Featuring a built-in control panel and glowing cat ears on the headband, these pink, over-ear Bluetooth 5.0 headphones will provide plenty of fun. Plus, they're foldable for convenient storage in your purse, hand luggage or school backpack!

Comfort of use

Made of high-quality materials, ONIKUMA B90 headphones will accompany you for a long time - ideal for both watching movies and cartoons and playing games. Their durable construction also makes them suitable for children, characterized by their robustness and lightness. The earcups of the headphones, covered with pleasant-to-touch eco-leather, ensure comfort even during hours of play. The ONIKUMA B90 is also an exquisite support for studying, as its design muffles ambient sounds, helping you focus on the task at hand.

Easy and intuitive operation

The ONIKUMA B90 headphones are equipped with buttons located on one of the earphones. With their help, you can control the volume, switch songs, pause and resume sound, as well as turn the headphones themselves on and off. In addition, on the same earphone there is a micro USB port for charging, a 3.5mm jack input, a microphone and a light indicator. All this provides convenience and intuitiveness

when using these headphones.

Enjoy like a child

Another highlight of these headphones is their luminous details - in RGB colors, they emit light both built into the earband and the logo and rings on each headphone. This gives them a childlike appeal as a cool gadget. For an even better effect, wear the headphones at night and watch the changing colors bounce off different surfaces!

Fantastic sound

B90 headphones are great sound quality enclosed in a charming case! Hear every word of your favorite character and fall in love all over again with well-known songs. These headphones are ideal for long-term use - they have an operating time of 5 hours with Bluetooth 5.0 enabled, as well as the ability to use a cable via a 3.5mm jack input.

Clear and smooth conversations

The microphone built into the headphones effectively eliminates wind and ambient noise to provide exceptional sound quality when chatting with family and friends, meeting your team or studying online.
