ONIKUMA M630 USB Gaming Microphone Pink

The ONIKUMA M630 is a high-end USB microphone, ideal for gamers, streamers, bloggers, as well as for recording music and podcasts. Its sleek, stylish design not only looks great, but also blends in perfectly with any workstation. The device provides fantastic sound quality, and thanks to Plug&Play technology, it is very easy to use. You also have at your disposal a special button with which you can mute the microphone in no time.

High sound quality and noise reduction

The ONIKUMA M630 provides exceptional sound quality thanks to advanced noise reduction technology that minimizes background noise, focusing on the clarity of the human voice. As a result, your recordings will sound professional and clear, without unnecessary distortion.

Plug&Play

The ONIKUMA M630 microphone is extremely easy to use thanks to its plug and play feature. Just plug it into a USB port and it's ready to go - no need to install additional drivers. It's ideal for those who appreciate convenience and ease of use.

Swivel stand

The specially designed rotating stand allows you to adjust the tilt angle up to 45 degrees, allowing you to adjust the microphone's

positioning to suit your needs. Its sturdy design ensures stability - don't worry about the device wobbling or tipping over.

Quick mute

There is a special mute button on the top of the device. This allows you with one touch to quickly mute the microphone if needed. Someone has entered the room and is saying something to you while you are currently streaming? Now with just a click, your viewers won't hear unwanted details of the conversation!
