

## Metal Protective Frame Sunnlylife for Insta360 X4

Metal Protective Frame Sunnlylife for Insta360 X4

Ref: 5906168435379

Metal Protective Frame Sunnlylife for Insta360 X4

Sunnlylife's case has been specially designed to fit the Insta360 X4 camera perfectly, without in any way affecting the ability to take panoramic shots. Made from CNC machined aluminum, this case provides unparalleled strength and toughness, effectively protecting your camera from scratches and shocks. Thanks to its lightweight design, weighing just 32 grams, you won't feel any extra strain when holding the camera, allowing you to record and shoot freely for extended periods of time. The sturdy screw mount allows for quick and easy installation without worrying about loosening or vibration.

### More options

The metal housing is equipped with two cold shoe mounts, so you can easily expand your camera's capabilities. With their help, you will attach additional accessories, such as lights or microphone, to the Insta360 X4 camera. What's more, the carefully thought-out design of the housing does not affect the functionality of the camera - you can easily connect it to charge or change the memory card, without having to remove the housing.
