ONIKUMA G38 Wired Keyboard (98 keys) Black

The ONIKUMA G38 wired keyboard is an excellent choice for gamers who require complete control and reliability. It is equipped with 98 keys with mechanical switches, so it is not only functional, but also compact. Thanks to technology that ensures no key conflicts, you can enjoy exceptional precision and smoothness, which is ideal even during intense gaming sessions.

Layout of 98 keys

The ONIKUMA G38 offers a full set of functions in a compact layout of 98 keys, which is 80% of a standard keyboard. This arrangement provides all the necessary functions while saving space on your desk. This is an excellent option for gamers who value ergonomics and efficiency.

Mechanical switches

The keyboard is equipped with high-quality mechanical switches that provide fast response time and reliable performance. What's more, you can press several keys at the same time without fear of conflict - now you can easily perform even the most complex combinations of attacks!

Colorful backlighting

Take care of the amazing atmosphere at your gaming station. The keyboard is equipped with colorful backlighting, which gives it a modern, stylish character. Thanks to this, it is sure to appeal to many avid gamers and more!

Comfortable and durable

Enjoy dreamlike comfort even during prolonged gameplay. The keyboard is distinguished by its well-thought-out ergonomic design, so it provides unsurpassed comfort and does not cause excessive strain on the wrists. In addition, high-quality materials were used in its construction, which translates into its durability and resistance to intensive use.
