

ONIKUMA G30 Wired Keyboard (84 keys) Cherry

ONIKUMA G30 Wired Keyboard (84 keys) Cherry

Ref: 6972470563092

ONIKUMA G30 wired keyboard (cherry)

The ONIKUMA G30 wired keyboard is the perfect tool for demanding gamers. With its compact design, 84 keys with mechanical switches and unique design, it provides reliability and comfort during any gaming session. It is also distinguished by colorful RGB backlighting and wide compatibility.

84-key layout

The ONIKUMA G30 offers a compact layout of 84 keys, which is 75% of a standard keyboard. This arrangement saves space on your desk while providing full functionality and convenience. It's an ideal option for gamers who value ergonomics and don't want to waste too much valuable space!

RGB backlighting

The matte transparent casing combined with RGB backlighting in 16 million colors makes the keyboard look really stylish and modern. There are also up to 18 lighting modes at your disposal - check which one you like best!

Mechanical switches

The keyboard is equipped with high-quality Red Axis mechanical switches, which provide instant response and comfort during gaming.

They are characterized by quiet operation and smooth operation, which is ideal for dynamic games that require fast and precise movements.

Conflict-free keys

The ONIKUMA G30 guarantees conflict-free keys, which means that each press is registered instantly, without delay. So you can press even several keys at the same time without worry - now performing complex combinations of attacks will become easier than ever before!

Compatibility with multiple systems

The keyboard is compatible with various operating systems, including Windows, macOS and Linux. So you can use it on a variety of devices, from desktops to laptops, enjoying its full capabilities regardless of the platform.

Easy storage and transportation

The ONIKUMA G30 features a design with a separate cable, which allows it to be easily stored and transported. This is ideal for gamers who frequently travel or move their gaming rig.
