ONIKUMA RGB Wired Gaming Mouse CW925

Immerse yourself in the world of gaming with the latest ONIKUMA CW925 gaming mouse. Created with durability and aesthetics in mind - it's perfect for professional gamers and dynamic gaming enthusiasts. It offers not only a unique design with RGB backlighting, but also unparalleled functionality. The mouse also supports 2 scrolling modes and is incredibly comfortable to use.

Ergonomic design

Thanks to its ergonomic design, the mouse provides comfort even during the longest gaming sessions. Its streamlined shape is designed specifically for natural hand positioning, which minimizes fatigue and increases precision of movements. In addition, the lightweight but durable design makes the CW925 perfect for fast and dynamic gaming.

RGB backlighting

The ONIKUMA CW925 mouse features unique RGB backlighting, the color of which you can customize to your liking - you can choose from up to 16.8 million shades! It is also possible to synchronize the light with music. Provide an amazing visual effect and emphasize the gaming character of your computer workstation!

Two scrolling modes

A unique feature of the CW925 mouse is its specially designed scroll wheel, which can operate in two modes. Tactile Scrolling allows you to scroll through text with precision and switch seamlessly between weapons or in-game skills. The Free Scroll option, on the other hand, allows fast, smooth scrolling - it will work well, for example, when browsing the Internet or reading in-game instructions.
