Sonoff NFC Tag

The Sonoff NFC Tag makes it quick and easy to manage smart scenes in your home. With NFC technology, you can activate selected functions in the eWeLink app on your smartphone with a single touch. This small accessory provides a lot of functionality, offering convenience and time savings in everyday use. You can use it in two ways - always have it at hand in the form of a card or stick a sticker in a prominent place in the house, such as on the wall.

Simple and fast configuration

The tag is extremely easy to set up and use. All you have to do is open the eWeLink app, add a scene, and then set the NFC Tag as a trigger. Now you can trigger the selected scenario with a single touch of your phone, making daily smart home management much easier!

Flexible use of NFC stickers:

Sonoff NFC Tag are also small 18 x 18 mm round NFC stickers that can be placed anywhere. They work identically to cards, allowing you to quickly trigger scenes from the eWeLink app. They are very discreet and easy to stick, making them ideal for installation in hard-to-reach places or small areas.

Durability and robustness

Sonoff's NFC tags are made of high-quality materials, which translates into durability and strength. Thanks to the NTAG215 chip, they can be read and written to repeatedly, which guarantees long-lasting performance. In addition, the anti-metallic layer allows them to be used on metal surfaces without losing functionality.

Security and reliability

Thanks to its NFC technology and compatibility with the eWeLink app, the Sonoff NFC Tag ensures safe and reliable operation. Users can also easily share scenes with their loved ones through the Share Home function, adding to the convenience and comfort of smart home solutions.

Multiple applications

The Sonoff NFC Tag will find use in a variety of situations in everyday life. For example, with one touch you can start your day by raising the blinds and turning on the lights. When you leave the house, you can turn off all the lights with a quick flick. At the office, NFC Tag will help you focus on your work by muting notifications and activating "do not disturb" mode. And in the evening, before the party starts, with one touch you'll turn on the right lights and music, creating the perfect atmosphere for your guests!
