Samsung microSDXC PRO Ultimate 512GB 200MB/s memory card (MB-MY512SA/WW)

The 512GB Samsung microSDXC PRO Ultimate is a memory card designed for heavy use in mobile devices and photo and video equipment. The MB-MY512SA/WW combines high data transfer speeds with the added functionality provided by the included adapter, making it an extremely versatile solution.

Performance and speed

With read speeds of up to 200 MB/s and write speeds of 130 MB/s, the card handles large files and demanding tasks well. This is especially important for users who shoot 4K video or use advanced camera functions such as high-resolution continuous shooting. The UHS-I/U3 and Class 10 speed class ensure that the card is able to meet the latest technology requirements.

Optimized for applications and multimedia

Video V30 class ensures that the card is ideal for recording a continuous stream of video, which is crucial for content creators and multimedia professionals. The A2 application speed class allows for faster loading and better responsiveness of applications installed directly on the card, an added value in smartphones and tablets.

Versatility and convenience of use

The included adapter expands the card's usability, allowing it to be used in a wider range of devices such as laptops, camcorders and older cameras that require full-size SD cards. This solution further enhances the practicality of the microSDXC card, making it more attractive to a diverse group of users.
