Gens ace 1400mAh 7.4V 2S1P LiPo battery for JR plug-in transmitter

Ref: 6928493305706

Gens ace 1400mAh 7.4V 2S1P LiPo battery for JR plug-in transmitter

With a 1400mAh capacity and 7.4V/2S voltage, the Gens Ace battery is the ideal power source for your RC transmitter. Its low discharge rate of just 1C makes it extremely safe and reliable. Equipped with a JST-XHR balancing connector and JR plug, it fits perfectly with RC transmitters such as Husban H501S, H502S, H107D, H107D+ and other models. Lightweight at only 57 grams, and compact at 76 x 30 x 13 mm, it is easy to install without putting undue strain on your device.

Manufacturer Gens Ace Model GEA14002SRXJRCapacity 1400mAh Voltage 7.4V/2S Discharge rate 1C Weight 57 g Dimensions 76 x 30 x 13 mm Charging speed Recommended 0.2C, max 1C
