Improve the quality of your product photography with the PULUZ 60 x 40cm shadowless tent. Ideal for photographers and online store owners - allows you to create professional photos in any conditions. It allows you to conveniently adjust the brightness of the lighting and offers 3 lighting modes to choose from. The set also includes 4 colored backgrounds (black, white, orange and green) and diffusion fabric.

### Portable photography studio

The PULUZ shadowless tent was designed with ease of use and mobility in mind. Thanks to its collapsible design, you can quickly unfold and fold it for convenient storage and transportation. It's perfect for those who need a mobile photography studio!

### Professional quality photos

This practical tent provides even lighting, minimizing shadows and making it easy to create high-quality photos. It offers three light modes to choose from and 10 brightness levels, allowing you to customize the light for each shot. In addition, the high CRI (Ra  $\geq$  95) guarantees accurate color rendition, which is extremely important for professional photographers.

### Versatile backgrounds included

The PULUZ shadowless tent comes with four PVC backgrounds: black, white, orange and green. You can easily change them to match the

products you are photographing. This makes it much easier to create a variety of shots and increase the quality of your photos.

#### Easy installation and use

The PULUZ tent is extremely easy to install and remove. It doesn't require any additional tools, making it quick and easy for anyone to disassemble. It's space-saving and flexible for use in a variety of situations, both in the studio and on trips.

#### Better photo quality with diffusion fabric

A diffusion fabric is included to further soften the light, reducing harsh shadows and reflections. This will make your photos look more professional and natural, and your products will look attractive.
