Hobbywing XERUN 140mm sensor cable

Hobbywing XERUN 140mm sensor cable is the original sensor cable, designed exclusively for use with Xerun series AC sensor motors. The Teflon-coated cable provides high durability and resistance to damage, and the ZH-6P-MALE terminal guarantees a secure connection. With a length of 140 mm, the cable is ideal for precise installation in a variety of applications, offering reliable operation and optimal performance for XERUN sensor AC motors.
