Esperanza XM104K Titanium Wireless Mouse Black

Ref: 5901299903391

Esperanza XM104K Wireless Mouse (black)

The Esperanza XM104K Wireless Optical Mouse is designed for notebook and desktop users who require reliability and freedom of movement. Thanks to 2.4 GHz technology, you can enjoy freedom of operation without worrying about interference or signal loss. It allows you to adjust the working resolution, adjusting the sensitivity to meet the requirements of both utility applications and intense gaming sessions.

Maximum comfort

Comfort is a key element of any work, which is why the Esperanza XM104K mouse is equipped with a quiet scroll wheel. This allows you to use it freely anywhere without disturbing others. Designed for maximum comfort of use, the mouse fits perfectly in your hand, minimizing fatigue even during the most demanding tasks.

Wireless operation

Forget about delays and other connection problems! The mouse works in 2.4 GHz technology, which ensures a stable connection even at a distance of up to 10 meters. Included in the set you will find an integrated NANO receiver, hidden at the bottom of the device, which you can connect to any device.
