Telesin EVA storage bag for DJI Osmo Pocket 3 camera

Keep your gear safe and make it easy to stay organized. The dedicated Telesin EVA bag is designed specifically for the DJI Osmo Pocket 3 camera - it's extremely durable, and with the available compartments, it allows you to optimally organize your space and ensure the stability of the equipment stored in it.

Durable EVA foam construction

The Telesin bag is made of high-quality EVA foam, which provides excellent protection against shocks and drops. What's more, the outer shell minimizes the risk of damage to your equipment during transport, protecting your DJI Osmo Pocket 3 camera from any unforeseen situations.

Thoughtful design with multiple compartments

The bag's interior was designed with maximum functionality in mind. Multiple compartments allow you to safely store your camera and accessories intended for it, preventing scratches and damage. This ensures that every piece of your equipment has its place and is well protected.

Mesh pocket for accessories

The bag features a mesh pocket that is perfect for storing small items such as cables, batteries and memory cards. The zipper ensures that all accessories are safe and easily accessible when you need them.

Comfortable to use

The rubberized handle provides exceptional comfort when transporting the bag. It is very comfortable to hold, which makes carrying your equipment easy and pleasant, even on long trips. In addition, the product is equipped with a double zipper, which will guarantee quick access to your equipment, while giving you peace of mind that it is securely closed.
