Teclast P50 11" 6/128 GB WIFI Tablet (blue)

The Teclast P50 tablet offers an 11-inch 1280x800 IPS screen with TDDI technology, an 8-core Unisoc T606 processor, 6GB of RAM (expandable to 14GB), 128GB of internal storage (expandable to 1TB), and an 8000mAh battery. The device also provides excellent image quality and comprehensive connectivity. In addition, it is TÜV Rheinland certified, which guarantees eye protection.

Impressive performance

The device runs on Android 14 and is equipped with an 8-core Unisoc T606 processor, which guarantees smooth and fast performance even with demanding applications. RAM of 6 GB, expandable up to 14 GB thanks to virtual memory, and 128 GB of internal memory expandable up to 1 TB via microSD card provide enough space for all your data.

High-end display

An 11-inch IPS display with a resolution of 1280x800 allows you to enjoy clear and vivid images. The display features brightness of up to 350 cd/m² and TDDI technology that integrates touch lamination for a smooth and responsive experience. In addition, T-Color 3.0 optimizes colors, offering a richer and more authentic visual experience.

Durable battery

The 8,000 mAh battery allows for hours of use without recharging. You can enjoy up to 12 hours of music playback, 8 hours of internet browsing and 11 hours of video watching. With USB-C charging, power renewal is fast and convenient.

Reliable camera

The P50 features a 5 MP OmniVision front camera, ideal for video calls and selfies, and a 13 MP rear camera with autofocus and LED Flash for clear photos even in adverse lighting conditions. With facial recognition, you can rest assured that an unwanted person won't unlock your device.

Delightful sound

Two stereo speakers and a PureSound digital audio amplifier ensure excellent audio quality, whether you're watching a movie, listening to music or playing games. A 3.5mm input allows you to connect headphones. Thanks to the two amplifiers, the sound is powerful and clear.

Stable connectivity

The Teclast P50 offers extensive connectivity, including Wi-Fi 802.11 a/b/g/n/ac, Bluetooth 5.0, GPS and support for four satellite navigation systems - Beidou, GPS, GLONASS and GALILEO. This means you'll always be in touch and find your way wherever you are. LTE support provides high-speed cellular connectivity. In addition, the VoLTE function allows you to make convenient voice calls over the LTE network.

User comfort and eye protection

With TÜV Rheinland certification, the Teclast P50 tablet provides eye protection by reducing blue light emissions. In addition, Eye Protection, Reading, Dark and Dim modes adjust the brightness and color of the screen to ensure comfortable use in different lighting conditions.

Additional amenities

The tablet supports Parallel View, which allows two apps to be used simultaneously in landscape mode for increased productivity and convenience. Android 14 also offers advanced personalization and security features, such as parental controls and app permission management. New color, theme and language options allow you to customize your device to suit your personal preferences. Valhall GPU also provides support for advanced AR and VR applications. In addition, the P50 is compatible with smart cases.

Included:

Tablet 5V/2A charger USB-C cable User manual
