Teclast Tablet M50 MINI 8.7" 6/128 GB WIFI (blue)

Teclast M50 MINI 8.7" 6/128 GB WIFI Tablet (blue)

The Teclast M50 MINI tablet runs on Android 14 and is equipped with an 8.7-inch IPS screen with a resolution of 1340x800, a Unisoc T606 processor with eight cores and 6GB of RAM. The device delivers smooth performance and excellent image quality. It also offers 128GB of internal memory, expandable up to 1TB, and long battery life. With support for dual SIM, VoLTE and various connectivity modes, it guarantees full mobility and convenience. Additional features including Parallel View, Taskbar, Privacy & Security and Parental Control enhance functionality and security.

#### High-end display

The 8.7-inch IPS screen with a resolution of 1340x800p provides clear and colorful images. TDDI and Incell technology guarantee full lamination, resulting in better touch response and enhanced user experience. With a brightness of up to 320 nits, the image is readable even in bright light. There are also modes to adapt the screen to different conditions, including Eye Protection, Reading, Dark and Dim.

#### Performance at the highest level

The Unisoc T606 processor with eight cores, combined with 6GB of RAM, ensures that the tablet runs smoothly even with demanding applications. Mali-G57 graphics with Valhall architecture and a frequency of 650 MHz allow comfortable gaming and multimedia operation. Thanks to T-Colour 3.0 technology, colors are more natural and clearer, improving the quality of the displayed image.

#### Space for everything

The device offers 128GB of internal memory, which is expandable up to 1TB. This allows you to store all your favorite apps, photos and videos without worrying about running out of space.

#### High quality sound

The Teclast M50 MINI is equipped with dual speakers and uses stereo sound technology for clear and deep sound. The built-in digital amplifier chip further enhances the sound quality, making it clear and rich. As a result, the device will meet the requirements of music and movie lovers who expect high audio quality.

#### Mobility and connectivity

With support for WiFi 802.11 a/b/g/n/ac in the 2.4GHz and 5GHz bands and Bluetooth 5.0, the Teclast M50 MINI tablet provides fast and stable wireless connections. The device supports four major navigation systems such as BeiDou, GPS, GLONASS and Galileo, providing accurate and reliable navigation around the world. In addition, dual SIM and VoLTE support allows you to make phone calls and use the Internet wherever you are.

#### Long runtime

The 5000 mAh battery allows for 8 hours of Internet browsing or video playback, as well as 12 hours of music listening. This makes the Teclast M50 MINI tablet the perfect companion for long trips. The USB-C charging port allows for quick and convenient power renewal.

#### Reliable cameras

The tablet is equipped with a 13MP rear camera and a 5MP front camera, allowing you to take clear photos and make high-quality video calls. The camera supports OmniVision technology, ensuring excellent photos in all conditions. In addition, Face Unlock allows you to quickly and securely unlock your device using facial recognition.

#### Smart sensors

The Teclast M50 MINI uses a variety of sensors, such as a gravity sensor, Hall sensor, light sensor and distance sensor, which improve the user experience. The light sensor automatically adjusts the brightness of the screen, while the Hall sensor provides intelligent screen control. As a result, using the tablet is intuitive and convenient.
