

Magnetic car holder with charger Choetech T204-F, 15W (black)

Ref: 6932112106360

Magnetic car holder with charger Choetech T204-F, 15W (black)

Choetech T204-F magnetic car mount, with 15W charger (black).

The Choetech T204-F car mount is a practical solution for people who need a stable and secure place for their smartphone while driving. The device is distinguished by its built-in 15W charger, which ensures fast and efficient charging. Its sturdy construction with high-quality materials and compatibility with a wide range of devices make it an ideal choice for drivers. The device is FCC, CE and RoHS certified, which proves its compliance with international safety and quality standards.

Robust construction

The T204-F is made of high-quality aluminum alloy, tempered glass and PC plastic. These materials ensure durability and resistance to damage, which is especially important in dynamic driving conditions. The combination of these three materials guarantees an elegant appearance and robustness of the handle.

Charging and interface

Choetech T204-F is equipped with a USB-C interface, which supports an input of 5-12V and 2A. With a maximum output power of 15W, the mount provides fast charging for mobile devices. This is especially important for those who use GPS navigation, which is a heavy drain on a smartphone's battery.

Included
Holder with 15W charger
Clip for mounting on the ventilation grille
USB-C cable 1 m
