TWS Choetech BH-T23 Headphones (black)

The TWS Choetech BH-T23 headphones are an elegant and functional device designed for users who value sound quality and comfort. The black color scheme adds to their modern and stylish look that blends well with a variety of styles. Equipped with the JL6983D2 chip and Bluetooth 5.3 technology, they provide stable wireless connections and high quality sound. With an ergonomic design and sturdy construction with eco-friendly materials, the BH-T23 headphones are ideal for active people looking for a reliable everyday companion.

JL6983D2 chip and Bluetooth 5.3

The advanced JL6983D2 chip combined with Bluetooth 5.3 guarantees exceptional stability and connection speed. This technology minimizes latency and interference, which is crucial for phone calls and music playback. The transmission range of up to 10 meters allows you to move freely without losing signal quality.

Excellent sound quality

The headphones are equipped with 8-millimeter composite diaphragm speakers with an impedance of 32Ω. As a result, they offer clear and balanced sound that will satisfy even the most demanding users. Precise tone mapping provides deep bass, clear mids and crisp highs, making listening to music an even greater pleasure.

Fast charging and performance

Forget about frequent power restoration in your headphones! BH-T23 feature a fast charging time of 1.5 hours. The 30mAh battery with protective plate allows 8 hours of music playback at 80% volume on a single charge. The 300mAh charging case, on the other hand, also with a protective plate, allows the headphones to be fully charged in 1.5 hours, further extending their use to 17 hours.

Durable and eco-friendly materials

The headphones are made of durable and eco-friendly PC+ABS materials. Their use guarantees durability and low environmental impact. Robust construction ensures a long life of the device, making it a suitable choice for those who care about the environment.

Compact design

The headphones' compact size of 49 x 48.9 x 27.6mm makes them easy to store and comfortable to wear. The ergonomic shape ensures comfort even during prolonged use, and the lightweight design minimizes ear fatigue.
