IP Outdoor Camera ZOSI C296 WiFi Pan Tilt 8MP Dual IP66 with 32GB microSD card

Ref: 6941709234898

ZOSI C296 WiFi 8MP dual Pan Tilt IP66 outdoor camera + 32GB microSD card

The ZOSI C296 outdoor camera offers high image quality and advanced features to keep your property safe. Equipped with a 1/2.7" progressive scan CMOS sensor and a 4.0mm lens at F1.6, the camera captures detailed images with a resolution of 2880x1620 pixels, even in challenging lighting conditions. With H.265 technology, it provides efficient video compression, while intelligent alarm functions and AI detection make monitoring more precise and effective. The camera also includes a 32GB microSD card.

Exceptional image quality

The ZOSI C296 camera provides clear and detailed images thanks to its 8MP CMOS sensor. An adaptive shutter and a 4.0mm lens at F1.6 enable the camera to capture high-quality video both during the day and at night. The camera also uses infrared with a range of up to 30 meters, ensuring excellent visibility after dark.

Intelligent AI features

The ZOSI C296 offers advanced AI functions such as face detection, vehicle detection and unusual sounds. Intelligent algorithms allow for precise monitoring and immediate notification of potential threats. What's more, the camera supports intelligent motion detection and people tracking, enhancing the security of your property.

Ease of installation and integration

The camera is waterproof and dustproof (IP66), making it ideal for any weather. Two 5 dB antennas ensure a stable IEEE802.11b/g/n wireless connection. Support for multiple network protocols, such as IPV4 DHCP, ONVIF, TCPIP, NTP, RTSP, P2P, allows easy integration into existing monitoring systems.

High quality audio and additional features

The ZOSI C296 camera has a built-in speaker and microphone, allowing two-way communication with others, such as a courier. With 3D digital noise reduction, wide dynamic range and backlight compensation, it provides clear and crisp audio and video. Support for storage up to 128 GB (TF card) and cloud storage allows for convenient storage of recordings.

Performance and reliability

The ZOSI C296 camera is designed with reliability and durability in mind. Powered by DC 12V, it consumes a maximum of 8W, making it energy efficient. With a rugged design measuring 179 × 111.8 × 161.8 mm and weighing about 514 g, it is resistant to various weather conditions, ideal for long-term use.
