Wireless Gaming Controller iPega PG-9023s with smartphone holder

Ref: 6987246390239

The iPEGA PG-9023S gaming controller

Conveniently play your favorite games on your tablet or smartphone. The iPEGA PG-9023S game controller features a long telescopic boom, making it a perfect fit for a wide variety of devices. Bluetooth 4.0 connectivity ensures stable, reliable transmission, and the multimedia buttons provide convenient access to several useful functions. The device is also distinguished by its wide compatibility and working time of up to 15 hours on a single charge.

Long telescopic boom

Customize the controller to fit your needs. With the built-in telescopic boom, you can extend it up to 28cm wide, allowing you to accommodate not only different smartphone models, but also tablets. Comfortably play on the device of your choice and break more records!

Practical media buttons

Do you often listen to music while playing? Then the Pad G-9023S is perfect for you! The device is equipped with several function buttons that you can use to quickly and conveniently stop or resume playback, switch songs and adjust the volume.

Reliable wireless connection

Say goodbye to connection problems. Bluetooth 4.0 provides a fast, stable and lag-free signal transmission so you can play even the most dynamic games without interruption. You don't have to download any apps to use the controller. Simply connect to it via Bluetooth and enjoy the battles that follow!

Created with gamers in mind

The controller's buttons have been placed in easy-to-reach locations for instant response. The joysticks rotate 360° and provide unparalleled precision, so you can easily track down an enemy in the game and launch an accurate missile at them. They also have a nice non-slip grip for even more comfort.

Improved design

The iPEGA brand controller features an improved ergonomic design. It fits perfectly in your hands and looks really good. What's more, the phone or tablet holder is designed to give your devices the required stability and protect them from falling out.

Long runtime

Free yourself from cables and gain almost unlimited freedom. The iPEGA wireless pad features a long-lasting battery that allows it to run for up to 15 hours on a single charge. In standby mode, it lasts up to 40 days! It only takes about 3 hours to fully charge the device.

Wide compatibility

Forget about compatibility issues. The PG-9023S pad works perfectly with most popular smartphones and tablets. It supports both Android and iOS (only 11.0-13.3.1 versions). It is also compatible with a wide range of games, so you can comfortably play your favorite titles without any obstacles.
